

# O<sub>2</sub>XYSAN WATER SANITIZER

**Directions for Use:**

Dilute with water at the rate of 1 part OXYSAN in 5,000 – 10,000 parts of water. When using water proportioners, mix 200 ml – 400 ml into 20 litres of water as a stock solution. Set proportioner to deliver 1 part of stock solution to 100 parts of water. Warning: Never mix with compounds other than water.

**Precautions:**

Not for human consumption. Keep out of reach of children. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. May cause eye and skin irritation. Do not get in eyes, on skin or on clothing. When mixing, wear goggles or face shield and rubber gloves. Take care when diluting with water to prevent splattering. Harmful if swallowed.

**First Aid:**

If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention. If swallowed drink one or two glasses of milk or warm water. Call a physician IMMEDIATELY. Keep patient warm.

**Storage:**

Store container in a cold, dry place. Reseal the cap tightly immediately after use. Do not expose to sunlight.

**Container Disposal:**

Rinse container thoroughly before disposal. Containers must be disposed of in accordance with provincial requirements.

**Product Disposal:**

For information on the disposal of unwanted product, contact the regional office of Environment Canada.

**Active Ingredients:**

Triple Salt – 8.66%  
Sodium Chlorite  
Sodium Chlorate  
Sodium Tetraborate Decahydrate

455 Dobbie Drive  
Cambridge, Ontario, Canada
