

Supp-Le-Milk

Piglet Milk Replacer

MIXING & FEEDING DIRECTIONS

- * Mix 3.8 liters (1 gallon) of warm water (50 C) with 3 level cups (425 gms) of Supp-Le-Milk powder.
- * Keep Supp-Le-Milk available to the pigs at all times.
- * Prepare fresh Supp-Le-Milk daily. Add new milk multiple times during the day.
- * For best results use Supp-Le-Mate Feeding Equipment to dispense milk to the piglets.
- * Always reseal bag between feedings.

GENERAL RECOMMENDATIONS

- * Follow good management practices.
- * Insure that piglets receive necessary colostrum.
- * Sanitation is Important! Keep feeding equipment clean.
- * Store bags in a cool, dry, well-ventilated area.
